

# Shakaya, Never Tried

Never Tried

Verse 1 (Simone)

One night I looked into the sky  
Sweet thoughts of you just passed me by  
Stars twinkling right up into space  
I see your face

Verse 2 (Naomi)

I'm lookin' deeper into your eyes  
But all I see just makes me wanna cry  
And nothing stops the hurt inside  
Coz what I feel is just a pain for goodbye  
Now you're saying that I never tried

Chorus (x2)

I never tried to be lonely  
You never gave me a chance  
All I wanted was to be romanced

Verse 3 (Simone)

One night I looked into your heart  
There was an empty space where I thought I would be  
And now I don't know where to start  
I'm used to you and me  
I guess love has a fee

Verse 4 (Naomi)

Why do we never see the signs  
It seemed so real this love but why was I  
So blinded by your lies  
Now I just don't have the time
