

# Shake Your Peace!, Sing It As You Please

Moviestubs, rubberbands,  
Paperclips, cellophane

Somewhere down the line  
Someplace gardens still be growing  
I'm a get a boat for rowin  
And a sandwich for the road

Well my weather vane broke  
So I learned to lick my fingers  
My heart is burned to cinders  
But my memory's like a stone

Well I got to go  
I can feel it in my toes  
It's just a song away to Colorado  
It's about that time  
My skin is just potato rinds  
I'm gonna ride the holy highway through the window

(CHORUS)

In a mountain meadow there's a song for me!  
Sing it as you please  
Sing it as you please  
And I'm waitin for an angel boat to fish for me!  
Sing it as you please  
Sing it as you please

I'm gonna find myself a comfy chair  
And read just like a cozy bear  
All I needs a honey pot  
And you can help me there  
Smoke a tree and hold your knees  
You're such a filthy human being  
I like your style now baby  
I'd like to show you everything

Well I got to go  
I can feel I'm growing old  
It's just a song away, take it slow  
I can you hear you now  
How's your life been anyhow?  
God girl nothing's real for you it's all a show.

(CHORUS)

(code words)

ven ven y baila, como yo bailo  
ven ven y baila, como yo bailo
