

# Shake Your Peace!, Sky Is Blue

The sky is blue when we rise, when we rise  
The sky is blue when we rise  
So put your hands up high  
And I'll put my hands on you  
And we'll dance until the sky is blue

4 wheels on this dirty road  
4 wheels on this dirty road  
will you remember me, when I'm old  
4 wheels on this dirty road.

CHORUS:  
Dirty road  
Blue sky

So put your hands up high  
And I'll put my hands on you  
And we'll dance until the sky is blue

There are no satellites in Nebraska,  
There are no satellites in Nebraska  
But there are plenty of stars right above where you are  
So dance with me until the sky is blue.

The sun is gone  
But the night is young  
The grass is thick  
And the world is big  
So dance with me until the sky is blue  
So dance with me until the sky is blue
