

# Shakespear's Sister, You're History

Well  
you made your bed  
better lie in it - get back to sleep !

You should see me when you're not around  
I'm a genius in this town

I'm a queen bee when the coast is clear

now I know I don't need you  
dear.  
So leave your hand like a magic man and disappear !

You're history  
like a beat up car  
No good for me  
like an old film star  
You're history  
that's what you are  
na na na na

You're history  
you're history  
No good for me  
no good for me  
You're history  
you're history  
na na na na na

You should see me from your ivory tower  
I'm the hero of the hour

I'm a close friend of destiny when you're not here to bother me.

Well  
you made your bed  
better lie in it  
get back to sleep !

You're history  
like ancient Rome  
No good for me  
like the Dead Sea Scrolls  
You're history  
everybody knows  
na na na na

You're history  
you're history  
My enemy  
my enemy  
You're history  
you're history  
na na na na na

So get on your bike and take a hike right out of here !

You're history  
you're history  
No good for me  
no good for me  
You're history  
you're history  
na na na na

You're history  
like a worn-out shoe  
My enemy  
you're nothing new  
you're history  
you're history  
ooh-ooh-ooh

You're history  
like a beat up car  
No good for me  
like an old film star  
You're history  
you're history  
na na na na

You're history  
sing it girl  
let me hear you  
You're history  
na na na na

You're history  
hm - my enemy  
bye-bye  
bye-bye  
You're history  
so long
