

# Shakira feat. Alejandro Sanz, D

WHERE ARE THE THIEVES?  
they've seen them around here  
they've seen them on the rooves  
giving back in Paris  
convicting in the courts  
with the powdered nose  
in a tie or in blue jeans  
they've seen them everywhere  
without anything else to say  
where are the thieves  
where is the murderer  
perhaps there flailing  
in the neighbor's patio  
and what happens if they are  
and what happens if i am  
the one who plays this guitar  
or the one who sings this song  
the one who sings this song

they've seen them on their knees  
sitting or squatting  
stopped giving lessons  
in all the positions  
preaching in the churches  
until offering concerts  
they've seen them in all the bars  
distributing ministeries  
where are the thieves  
where is the murderer  
perhaps there flailing  
in the neighbor's patio  
and what happens if they are  
and what happens if i am  
the one who plays this guitar  
or the one who sings this song  
the one who sings this song
