

Sham 69, What Have We Got (Live)

What have I got
I've got you
What have I got
I got you
What have I got
I got you
What have I got
I've always got you

They can take everything I've got
They can chuck it all away
But I will always say I've had a good day

What have we got
We've got you
What have we got
We've got you
What have we got
We've got you
What have we got
We've got you

Some things you need
Your days are over son
You'll have to runaway
I said no I've been here anyway

What have I got
I've got you
What have I got
I got you
What have I got
I got you
What have I got
I've got you

Take me as you are
Or leave I don't care
Cos I'll always do to the best
That I know I'll do for you
And I want to say thankyou
Thankyou
