

Shamra, Limelight

Dripping from me like Ford motors
Sucked in cheeks and short sleeve skirts
All season long
I think I deserve an apology
No one ever said you had to look at me
Limelight shines on the girls
Who are far too sexy
Limelight shine on a girl
Who feels far from sexy
Aren't I the perfect poser

Box step with a streamlined smirk
The legs are long
I think I deserve an apology
No one ever said you had to look at me
Limelight shines on the girls
Who are far too sexy
Limelight shine on a girl
Who feels far from sexy
