

Shania Twain, Life's About to Get Good

I wasn't just broken
I was shattered
I trusted you so much
You're all that mattered
You no longer broke me
And I seems like a ...
I couldn't move on

Life's about joy
Life is about pain
It's all about forgiving
And the will to talk away
I'm ready to be loved
And love the way I should
Life's about
Life's about to get good

Oh, Life's about to get good

The wider the river
Killed me that you gave your life to be with her
I hope to believe that things would beg better
It's hard to forget you, forever

Life's about joy
Life is about pain
It's all about forgiving
And the will to talk away
I'm ready to be loved
And love the way I should
Life's about
Life's about to get good

Oh, Life's about to get good
