

Shania Twain, Swingin' with My Eyes Closed

So summers here
bring it on
another year
one more beer
another song
comes on the radio
so loud and clear
you whisper come
in my ear

I follow like a season
not afraid of what I'm feeling

I'm swinging with my eyes closed
get my hair down
light up and go
I'm swinging with my eyes closed
only God knows
How far it goes

fist up in the air
throw like we don't care

swinging

life is short
not so long
nothing's sure
in this world
till we're gone

fear disappears each time I close my eyes
I kiss you once
kiss kiss
I kiss you twice
It's in the air we're breathing
can you taste the freedom?

I'm swinging with my eyes closed
get my hair down
light up and go
I'm swinging with my eyes closed
only God knows
How far it goes

fist up in the air
throw like we don't care
