

Shanice Wilson, Fly Away

(Laney Stewart, Phillip "Silky" White, Gloria Stewart, Babyface)

If I had wings I'd fly away
I'd let the stars just guide the way
Right to you
Don't care if this journey takes all night
Oh, how my heart yearns to be with you

I thought I would share with you my dreams
I'm still missing you
But instead of just writing you
I'll spread my wings and

Hook
Fly like an angel to you
I'll spread my wings like an eagle
And fly straight to you
I'm gon' fly like an angel to you
Won't be writing you no letters
Loves gon' bring our souls together

And if by chance that we should meet
On an open glide
We'll run away with each other
No looking back we're headed to our destiny
Someday I hope it will come true
(will come true and I)

I thought I would share with you my dreams
I'm still missing you
(I'm still missing you)
But instead of just writing you
I'll spread my wings and fly

Hook

Bridge
And we'll fly (and we'll fly)
Through the sky (through the sky)
To the sun
To the heavens above
And we'll touch through our love
We'll be closer to heaven
I'll open my wings and fly
