Shannon Brown, Good Ole Days

There's a Stetson in the back of the room And he's movin' to a hip hop groove And he's doin' it like a country boy do, yeah

And there's Jenny givin' it all she's got She's dancin' with a bombshell blonde They're shakin' it up on the table top You don't have to worry what your mama said, Just check that baggage at the front door

(Chorus:)

Welcomé to the good ole days, get here early stay up late If you get funky it's okay There's something goin' on in here, it's not your average atmosphere Everybody's so glad you came, welcome to the good ole days

We got a D.J., we call him Dreadlock Jones And he's mixing Haggard and Stones Keeps it bumpin' all night long You can two step, you can bust a move Be a redneck or you can just play it smooth Well it's all about finding your own groove

Forget about tomorrow and your yesterdays Just let it go and live for tonight

(Chorus x4)
