

# Shannon Curfman, Musta Been Love

(Shannon Curfman and Kevin Bowe)

I seen love on the TV screen  
People cheatin' and treatin' each other mean  
I never knew what they were cryin' about  
Until you took my heart and ripped it right out

Chorus:

Musta been love  
When you stabbed me in the back  
Only love'll make you feel like that  
That's how I know I found love at last  
Musta been love 'cause it hurt so bad  
So bad, so so bad

You musta seen it right from the start  
I had a target painted on my heart  
You took your shot and it still stings  
Don't that mean it was the real thing?

Chorus

Now I know what love's about  
You broke my heart and I found out  
Thanks a lot for everything  
You showed this girl what true love brings

Chorus
