

Shannon Curfman, Never Enough

I've seen the people

As they walk down the street

Smiling and looking so free

As I stand on the corner

With a tear in my eye

Wondering how it would be

If I'd never asked for what I could not have

Always living for things out of reach

Chorus:

Never enough

Forever unsatisfied

Missing a piece of my soul

Never enough

Forever unanswered

Like a prayer that never gets told

Fall away troubles, dreams and desires

And let me escape from myself

If I'd never asked for what I could not have

I could live just like everyone else

Chorus

Fall away troubles, dreams and desires

And let me escape from myself
