Shannon Curfman, Real Bad Feeling

(Kevin Bowe and Tony Sims)

I got a real bad feeling about you baby

When I seen the way you walked across the room

I knew right from the start

You were born to break my heart

But I just can't keep myself away from you

Chorus:

I got a real bad feeling

I'm knockin' on wood

Can't walk away but I know I should

I got a real bad feeling

It's gonna be good

Now me I don't believe in superstition

But ever since you walked across my path

I knew inside my heart

Down in the darkest part

We were born to lose

But we had to take the chance

Chorus

You're ticking like a time bomb 'bout to go off

I'm putting my heart on a suicide watch

Chorus
