

Shannon Curfman, That's How It Feels

(Kevin Bowe, Heidi Langseth and Kostas)

Sitting on a fence

Watching the world go by

Staring out at the promised land

Just on the other side

I can't fall back

There's nothing left for me

Everything's been lost or broken

And left out on the street

Chorus:

That's how it feels

That's how it feels

I know where I want to go

But I can't stop spinning my wheels

That's how it feels

Time after time

To be so close to what I want

And then get left behind

Out in the cold

Trying to get in

I can't stand being alone

And I'm sick of my own skin

Got nothing to lose

Got nothing to hide

I know what I want

And I won't be denied

Chorus

Sitting on a fence

Watching the world go by
Staring out at the promised land
Just on the other side

Chorus
