

Shannon Lawson, Superstar

I know you're waitin for your day in the sun to come around
This middle of nowhere ain't no tinsel town
But as long as you've got me you'll always be
Somebody's superstar
You're worried this road you're on won't take you very far
But I love you baby, no matter where you are
And as long as you've got me you'll always be
Somebody's superstar
The sun comes up every morning
But you're still the brightest star in my sky
When darkness falls all around me
I find the light of my life in your eyes
I'll run beside you chasing your wildest dreams
Even if you never make the silver screen
As long as you've got me you'll always be
Somebody's superstar
The sun comes up every morning
But you're still the brightest star in my sky
When darkness falls all around me
I find the light of my life in your eyes
If the years leave us standing right where we are
Just know you've made your mark right here in my heart
Just know as long as you've got me you'll always be
Somebody's superstar
As long as you've got me you'll always be
Somebody's superstar
You're my superstar
You're my superstar
