

# Shannon Noll, Before We Say Goodbye

Sometimes your heart, it feels so far away  
Somewetimes our lives are night and day  
It always seems there's something out  
there better  
But who knows

Chorus  
Before we say goodbye  
Take a breath and think about it  
You're the one who makes me feel  
Ten stories high  
I'll survive and stay alive, yeah  
Take a look down deep inside  
Before we say goodbye

Soemtimes my world, I feel it slip away  
I hear your name and I feel sane  
Sometimes we dream of another life we're  
missin'  
But who knows

Chorus  
Before we say goodbye  
Take a breath and think about it  
You're the one who makes me feel  
Ten stories high  
I'll survive and stay alive, yeah  
Take a look down deep inside  
Before we say goodbye

Chorus  
Before we say goodbye  
Take a breath and think about it  
You're the one who makes me feel  
Ten stories high  
I'll survive and stay alive, yeah  
But I need to know why  
Before we say goodbye  
Before we say goodbye, yeah  
Before we say goodbye  
I'll survive and stay alive, yeah  
Took a look down deep inside  
Before we say goodbye
