

Shannon Noll, Let Me Fall With You

(all rite)

take my time
checking my style
wondering no where
uh huh
all this time
spinning my head pretending I don't care
but its driving me crazy

i dont know what to say
i dont know what to do
and baby i've been thinking
that i should be with you

CHORUS

and if i fall into your arms tonight
would you let me stay forever
if i could fly
into your hearts desire
if i could fall
would you let me fall with you

mystified, these feelings inside
making my soul safe
oh yea
somethings are tight
spinning my heart
living for a race
and its driving me crazy

i dont care what they say
i don't care what the do
when knowing this is over
and i'll still be with you

chorus

oh oh
let me fall with you
oh yea
uh huh
let me fall with you

put my life in your hands
put my heart on my sleeve
as long as your inside me
love is all we'll need

catch me when i fall
we can have it all
as long as we're together
won't you promise me
catch me when i fall
we can have it all
as long as we're together

chorus

if i should fall
let me fall with you
