

Shannon Noll, Promises

something is happening here
someone is hurting me deep inside
how do i get out of here
someone is mumbling and speakin words
that make no sense
i been thinking it over and over again
what am i supposed to do
when all i want is you

[CHORUS]

i just wanna keep my promises to you
baby every single day i'm standing here
trying to get through
i wanna give you what ever it takes to be closer to you
baby i just wanna keep my promises to you, promises to you

something happened tonight
i wanna know what's going on
dont tell me i'm the only one
that's keeping it all inside
just say the word, please talk to me
if it's hopeless make me see
cos what am i supposed to do
when all i want is you

[CHORUS]

i just wanna keep my promises to you
baby every single day i'm standing here
trying to get through
i wanna give you what ever it takes to be closer to you
baby i just wanna keep my promises to you, ptomises to you

everything i'll give you, i'll give you
everything i'll keep my promises
