

# Shannon Noll, Wise

Never thought that I'd hold another  
Like I'm holding you right now  
But through you I've rediscovered  
How to love again somehow

You brought me back from the place,  
That I thought no time could erase, till now

CHORUS:

Don't know if this will last  
Or if our time will come to pass  
I'm not concerned with things like where or when  
Don't know if it be wise to call that love there in your eyes  
I just know it's good to feel this way again

Haven't used this heart for so long  
It forgot how to feel  
Now that emptiness is all gone  
You fill me up with something real

You brought me back from the place  
That I thought no time could erase, till now

CHORUS:

Don't know if this will last  
Or if our time will come to pass  
I'm not concerned with things like where or when  
Don't know if it be wise to call that love there in your eyes  
I just know it's good to feel this way again

I took one look at your face  
It brought me back from the place  
I thought no time could erase, till now

CHORUS:

Don't know if this will last  
Or if our time will come to pass  
I'm not concerned with things like where or when  
Don't know if it be wise to call that love there in your eyes  
I just know it's good to feel this way again
