

Shannon, Shine

Get up, get up, get up, get up and lift your head
Come on, come on, get up out of bed
Today's the day you hold the world with your song
Go now, go now, go now, help escalate
Angels come down, help with this parade
To hear your voice ring out
Come on and shout it
Let your song be heard

This is the time
This is the day that we've been waiting for
All the world will stop to watch you shine

Hey now, hey now, hey now, hey now sing your hymn
This is the new national anthem
We will all stand on guard to let you be heard
Let go, let go, let go all that can ask
How beautiful this world has become
Now everyone will see what I believe
That these words should be sung

This is the time
This is the day that we've been waiting for
All the world will stop to watch you shine
This is the time
This is the day that we've been waiting for
All the world believes that you will shine

And if you fall
And if you fall
And if you trust and
Yes it will come true

Hey, hey
Yeah!

This is the time
This is the day that we've been waiting for
All the world will stop to watch you shine
This is the time
This is the day that we've been waiting for
When all the world will stop to watch you shine
