

Shannon Wright, Defy This Love

You help me do the things I hold
You help me do the things I hold

Defy, defy our love
Defy, defy our love

And it's not the roles you play
And it's not the roles I play

Defy, defy our love
Defy, defy our love.

Oh, how they start
Little birds so gently
I give you all the love I've got
And let it shine right through me

Can we please forget the pain
Can we please forget today
Define, define our love
Define, define this love

Oh, how they start
Little birds so gently
I give you all the love I've got
And let it shine right through me

All the while
I still carry
The lullabies that you sing
Circle round angry on me
If only you would come for me
