

# Sharissa, Issues

Seems like im always mad at you  
And its always something you did  
Or something that you didnt do  
And im always telling you that you can leave  
And from the minute you walked out, it doesnt feel right to me

(Chorus)  
Everyboday wants that perfect love  
But i'll take you and all your imprefections  
Your love is like an oven  
You got issues but i miss you  
You got a lot of stuff with you

My friends always express their doubts  
So the more we stay together  
Give them something to talk about  
Even though i know your not well to do  
And you dont have a lot of money  
But you sure got a lot of use

(Chorus x2)

Love is so hard to come by  
A good friend  
And a piece of mind  
Keep on loving me  
The other stuff can pass by  
Your not perfect all the time  
But you are the perfect guy

(Chorus)
