

Sharissa, Issues

Seems like im always mad at you
And its always something you did
Or something that you didnt do
And im always telling you that you can leave
And from the minute you walked out, it doesnt feel right to me

(Chorus)
Everyboday wants that perfect love
But i'll take you and all your imprefections
Your love is like an oven
You got issues but i miss you
You got a lot of stuff with you

My friends always express their doubts
So the more we stay together
Give them something to talk about
Even though i know your not well to do
And you dont have a lot of money
But you sure got a lot of use

(Chorus x2)

Love is so hard to come by
A good friend
And a piece of mind
Keep on loving me
The other stuff can pass by
Your not perfect all the time
But you are the perfect guy

(Chorus)
