

Sharleen Spiteri, Stop, I Don't Love You Anymore

Oh! You ask me why you say you want to be with me
But you're still in love with me and I just want to breathe
The way you move and sway I'm resigned to say it's true
Oh! You're the only one to blame that our love has fallen through

Stop! I don't love you anymore woooo
Stop!
Stop! I don't want you anymore woooo
Stop!

Oh! I'm all cried out and now I've got to put your mind at ease
You're still in love with me and I gotta make you see
The fact of here and now I won't deny I can't erase
Oh! You're the only one to blame so take that look off your face

Stop! I don't love you anymore woooo
Stop!
Stop! I don't want you anymore woooo
Stop!

You know I wanted so much more
I want it better than before
You know you didn't get it right

Gotta stop! I don't love you anymore woooo
Stop!
You gotta stop! I don't want you anymore woooo
Stop!
Gotta stop! Stop!
