

# Sharon Doorson, High On Your Love

You beat my drum, drum, drum  
And it's dynamite  
You beat my drum, drum, drum  
And it feels so right

I'm like a bomb, bomb, bomb  
Ready to explode  
Yeah, I'm on fire, on fire  
Tonight you're gonna save my world  
Baby it's there tonight  
You're gonna light my world

I'm getting high on your love  
I'm getting high on your love  
I'm getting high on your love  
I'm getting high on your love

You'll take me high, high, high  
Like a paper kite  
Up in the sky, sky, sky  
On a starry flight

I'm like a bomb, bomb, bomb  
Ready to explode  
Yeah, I'm on fire, on fire  
Tonight you're gonna save my world  
Baby it's there tonight  
You're gonna light my world

I'm getting high on your love  
I'm getting high on your love  
I'm getting high on your love  
I'm getting high on your love

I'm high on your love  
You make me fly on love  
You make me cry, you make me sigh  
You make me die for love  
I'm high on your love  
You make me fly on love  
You make me cry, you make me sigh  
You make me die for love

All of my days I dream of you  
All of my nights I get high on you  
Giving me wings, that's what you do  
Boy you make my dreams come true

Tonight you're gonna save my world

I'm getting high on your love  
I'm getting high on your love  
I'm getting high on your love  
I'm getting high on your love
