

# Shawn Colvin, These Four Walls

I'm gonna die in these four walls  
I've had enough and I've tried it all  
I'll watch the day break and I'll see the night fall  
In these four walls

Show me trouble I'll take him down  
I drew a line on this patch of ground  
Everything's safe and everything's sound  
In these four walls

Up on the rooftop  
I can remember  
Borders I had to break  
Now I can see I had this life  
To make

I'm gonna miss your southern drawl  
A baby's footsteps in an empty hall  
And every little thing I can ever recall  
In these four walls

Up on the rooftop  
Feel like you're flying  
Thinking your heart could break  
Oh can't you see we had this love  
To make

I'm gonna die in these four walls  
I've had enough and I've tried it all  
I'll watch the day break and I'll see the night fall  
In these four walls.
