

Shawn Desman, Difference

what is that we have to do
to change this world
what can i do
what can you do

sitting at home
all alone
just watching mad tv
the news come on
the world's gone wrong
that's how it seems to me
see people dying
people crying
got no food to eat
it ain't my life
so tell me why
it means so much to me

let's try to open our hearts
it's not too late to make a brand new start

CHORUS

here and now i believe
there are solutions to the problems we see
we should all take a chance
don't be afraid to lend a helping hand
this world could be so beautiful
if we just work together to make
a difference today

i took a walk down by the schoolyard where i used to play
now there's no children only people spending wasted days
the same old lady holds her hand out by the corner store
i always give her what i can you know she still needs more

let's try to open our hearts
it's not too late to make a brand new start

CHORUS

(just got to make a difference)

open up your eyes
don't you realize
they need you
let's not run away
listen when i say
that i believe

if we just opened our hearts
it's not too late to make a brand new start

CHORUS x2
