

# Shawn Desman, Difference

what is that we have to do  
to change this world  
what can i do  
what can you do

sitting at home  
all alone  
just watching mad tv  
the news come on  
the world's gone wrong  
that's how it seems to me  
see people dying  
people crying  
got no food to eat  
it ain't my life  
so tell me why  
it means so much to me

let's try to open our hearts  
it's not too late to make a brand new start

CHORUS  
here and now i believe  
there are solutions to the problems we see  
we should all take a chance  
don't be afraid to lend a helping hand  
this world could be so beautiful  
if we just work together to make  
a difference today

i took a walk down by the schoolyard where i used to play  
now there's no children only people spending wasted days  
the same old lady holds her hand out by the corner store  
i always give her what i can you know she still needs more

let's try to open our hearts  
it's not too late to make a brand new start

CHORUS

(just got to make a difference)

open up your eyes  
don't you realize  
they need you  
let's not run away  
listen when i say  
that i believe

if we just opened our hearts  
it's not too late to make a brand new start

CHORUS x2
