

# Shawn Mendes, Call My Friends

Right now I'm alone inside the airport  
And you're all at a bar in our hometown  
Feels like we been living different lives

The music's loud and everybody's dancing  
How many nights I've missed  
I've lost count  
Haven't see your faces in a while

I should call my friends

I should call my friends  
And go get high  
I need a vacation from my mind  
I wanna go nobody knows  
Me better than tchem  
Wanna feel something again  
I should call my friends\*
