

Shawn Mullins, Blue As You

New like smoky mornin'
Cool like heaven glow
Meet me on the mountain
I've got no place to go

I like my daylight to be silver
I like my night skies to be blue
Blue as you

Underwater daydream
Bone dry desert sand
Half them words you're singin' boy
I don't understand

I like my daylight to be silver
I like my night skies to be blue
Blue as you

Days I while away
Guess that you could say
I'm just unwindin'
What you're lookin' for
Babe I know it isn't what you're findin'
Blue is you

Instellar rainbow
On its cosmic wheel
Rollin' where the wind blows
Never standin' still

I like my daylight to be silver
I like my night skies to be blue
Blue as you
Blue as you
