

# Shawn Mullins, Find Love

Stop regretting all the years inside your head  
Not forgetting there's some truth to what you said  
And you know now that I gotta keep rollin' on  
Here we go now  
We're driving through another dawn

Someday you'll find love  
Someday you'll find love  
Someday you'll find love

When it's over do you try to build another fire?  
Or do you pour water on the coals?  
Are we both just too damn tired?  
And you know now that I gotta keep movin' on  
Here we go now  
Everything we had is gone

Someday you'll find love  
give you everything you need

Someday you'll find love  
give you everything you need  
Someday you'll find love, find love

For the record, I never said that you should stay.  
What you were after, I never had to give anyway  
And you know now, I gotta keep rollin' on  
Here we go now  
I'm drivin' through another dawn

Someday we'll find love  
give you everything you need  
Someday we'll find love  
give you everything you need  
Someday we'll find love  
give you everything you need  
Someday we'll find love  
give you everything you need
