

Shawn Mullins, I Know

you're in my mind half the time
tryin to find someone to hide behind
and still they poured right in on you
and everyday you try to walk away
from the stupid things they say
they say just to hurt you

chorus:
im singin baby
i know you know
that when the musics pumpin
and the lights are low
you become become someone else

well i gotta pay respect
where respect is due
i aint never seen a woman
who can move like you
i said i gotta pay respect
where respect is due
i aint never seen a woman
who can move like you

chorus

i feel it burnin from my soul
and it takes me higher
baby theres no reason to control
i dance with my desire
you're in my mind half the time
tryin to find someone to hide behind
and still they poured right in on you
and everyday you try to walk away
from the stupid things they say
they say just to hurt you

chorus
