

# Shawn Mullins, You Mean Everything To Me

To my partner...you really do.  
I've been on the road too long  
and i've been stuck inside a song  
and you know our love has been  
through rougher weather  
but our passion's like a rose  
the seasons tell it how it grows  
and not much compares  
to the times we've shared together  
'cause love heals everything  
we're no exception to the rule  
you mean everything to me  
so if there is anything at all  
all you've got to do is call  
and you know that I would  
drive 10,000 miles  
just to show you that I care  
just to kiss your honey hair  
and pull you close and hold you like a child  
love heals everything  
we're no exception to that rule  
you mean everything  
you mean everything  
you mean everything to me
