

Shea Seger, I Can't Lie

Looked inside it I can't find it
Living in a perfect world
I touched the rocks I touched the stones
It's the little things that break these bones
Living in this perfect world

When I can't hide
Even if I tried
I can't lie to you
Just to make you feel better

My recent past has moved so fast
Couldn't keep up fell on my ass
Living in this wind up world
Sick and tired my card's expired
Why on earth did I get so wired?
Living in a perfect world

When I can't hide
Even if I tried
I can't lie to you
Just to make you feel better

Just run quick find a car
No location just drive it far
I said run quick find a car
No location just drive it far
Drive it far
Drive it far
Drive so far away

I can't lie
No Matter How I try
I can't lie to you
Just to make you feel better

I can't lie
No Matter How I try
I can't lie to you
To make you feel better
