

# Shea Seger, I Can't Lie

Looked inside it I can't find it  
Living in a perfect world  
I touched the rocks I touched the stones  
It's the little things that break these bones  
Living in this perfect world

When I can't hide  
Even if I tried  
I can't lie to you  
Just to make you feel better

My recent past has moved so fast  
Couldn't keep up fell on my ass  
Living in this wind up world  
Sick and tired my card's expired  
Why on earth did I get so wired?  
Living in a perfect world

When I can't hide  
Even if I tried  
I can't lie to you  
Just to make you feel better

Just run quick find a car  
No location just drive it far  
I said run quick find a car  
No location just drive it far  
Drive it far  
Drive it far  
Drive so far away

I can't lie  
No Matter How I try  
I can't lie to you  
Just to make you feel better

I can't lie  
No Matter How I try  
I can't lie to you  
To make you feel better
