

# Shea Seger, Wasting The Rain

c'mon baby  
we're wasting the rain  
let me stay inside and let the world go on it's way  
give me one kiss for every moment that remains  
well, c'mon baby  
we're wasting the rain

c'mon baby  
and let me see you smile  
cause it's the place on you i love most  
but it's been a while  
those all important things to do outside can wait  
c'mon babe  
we're wasting the rain

these days were made for making love  
a million tears from above us  
love is like a river  
take some time to keep it flowing

c'mon baby  
and unloack the door (door)  
love can take you places that you've never been before  
somehow the showers only seem to fuel the flame  
so c'mon baby  
here they come again

c'mon baby  
we're wasting the rain
