

# SHeDAISY, All Over You

(Kristyn Osborn, Richard Marx)

Look at me I can't sleep  
Alone with these secrets I keep  
The walls are breathing and I  
Consider the casualties  
If the man that you have to be  
Changes his  
Mind over heart over head over heels  
I can feel good-bye but I'll  
Always be

Chorus:  
All over you  
I'll burn upon your body with  
A fire that's mocking the sun  
All over you  
The love that lingers on your lips  
Will be my final testament  
That what's been done I can't undo  
I'll always be all over you

I pour a glass of pure honesty  
Leaves me dizzy enough to see  
It's raining outside my  
Window the light balloon  
Isn't rising a moment too soon  
Breaking things  
I didn't know were so brittle they'd break  
Was it my mistake  
To light the match and blow the ash

Repeat chorus

Bridge:  
I could deny the seasons  
Even with the last leaf that falls  
If it Justified the reasons  
I'm not yours at all  
So I'll go on lamenting silently  
If that's the way it has to be  
But you'll always touch and taste and see me  
(All over you all over you)

Repeat chorus
