

SHeDAISY, Before Me And You

Every kiss before this
Was nothing by a waste of breath
And every I love you was just a whoop-de-doo
Never knew what I missed before this

Da, doo, doo, doo
Ooo,Ooo

Yea, And every love song before you came along
Was always about someone else
Oh well every star was just a wish to far
Always the realest, yea before this

(chorus)
And the way things go, you never know
Where love will lead you to
And everything we've ever dreamed
Lies before me and you

People say it's not everyday
That you find the perfect fit
But when I fell for you, I found the other shoe
Cupid was a myth, before this

(repeat chorus)

Yeah-
Da, doo, doo, doo, doo, doo
Da, doo, doo, doo, doo, doo
Da, doo, doo, doo, doo
Yeah

(repeat chorus 2x)

Yeah, before me
Me and you
