

# SHeDAISY, I'm Lit

(Kristyn Osborn/Marcus Hummon)

Do you know I'm thinking you  
Can you feel me drinking you  
Is any of this sinking through  
Neatly so completely bent  
By this brilliant accident  
I couldn't seem to circumvent  
Your dizzy exhilaration  
Clouding my concentration

CHORUS I'm lit, don't you get it yet  
See this circus in my head  
I'm tangled in the net  
Baby this is it  
I'm lit, nothin' left to do but another shot of you  
I can't stop this spinning room  
Baby this is it, I'm lit

It's getting hard to breathe in here  
Maybe I should disappear  
Find another atmosphere  
Or maybe I should just come clean  
Take it to a new extreme  
Fashionably make a scene  
But there is no need to panic  
I'm just a harmless romantic

REPEAT CHORUS

BRIDGE Someone get the dog and hitch the truck and drag me from this table  
Before they come and lock me up declaring me, declaring unstable

REPEAT CHORUS (2x)
