

# SHeDAISY, The First To Let Go

(Kristyn Osborn)

In my meager defense I have tried to make sense  
Of the chaos that clutters my mind  
You could nail to my soul every reason to go  
But the reason to stay I would find  
'Cause there's no resolution or clear cut conclusion  
As I'm caught between the ebb and flow  
But for you I'll discover the will to recover  
For you I'll be first to let go

I'm not his I'm not yours I'm not mine anymore  
Somehow the silver lining was torn  
And we won't get too far with the door Just ajar  
Only whispers keeping us warm  
'Cause there's no resolution or clear cut conclusion  
As I'm caught between the ebb and flow  
But for you I'll discover the will to recover  
For you I'll be first to let go

Bridge:  
I'll send you a lullaby  
Across the burnt orange sky  
So looking to heaven you'll know  
For you I let go

When I see on your face one day I've been replaced  
I'll smile as I watch you fly  
And say one grateful prayer for the angel who's there  
And cry for the one left behind  
'Cause there's no resolution or clear cut conclusion  
As I'm caught between the ebb and flow  
But for you I discovered the will to recover  
For you I was first to let go  
First to let go
