

Sheeba, Horoscopes (Eurovision 1981)

Rushing for the papers every day
To find out what the stars have got to say
About the fortunes that are on the way
It's crazy, crazy
Working, not waiting that forever we'll hold
Success comes from what we do, not from what we're told
And counting our lucky stars is living unfortold
Don't let the planets take control of our lives
Believe in the truth and not celestial lies
It's we, not the stars above, who write our horoscopes
There go those Aerians, Leos, Aquarians
Pisces, Cancerians show
No matter when we're born, Libra or Capricorn
Taurus and Scorpions know
Nothing can change the way we've chosen to live
And no one can tell us when to take or to give
It's we, not the stars above, who write our horoscopes
Yet in spite of this, one day, life died
There we are, with eyes turned to the sky
All anxious to be told a few more lies
Still crazy, crazy
Working, not waiting that forever we'll hold
Success comes from what we do, not from what we're told
And counting our lucky stars is living unfortold
Don't let the planets take control of our lives
Believe in the truth and not celestial lies
It's we, not the stars above, who write our horoscopes
Throw away all the maps, signs of the Zodiac
Then there is said to be found
They are celestial, we are terrestrial
Let's keep our feet on the ground
Don't let the planets take control of our lives
Believe in the truth and not celestial lies
It's we, not the stars above, who write our horoscopes
It's we, not the stars above, who write our horoscopes
