

Sheena Easton, Take Me Home

There's a bridge over the water
I can see it like a rainbow
If you love me I'll be waiting
Take me home to the other side

Baby we're standing at the threshold
With our eyes open wide
Let the river keep on flowing
We can reach the other side
Caught in an endless revolution of these helicopter skies
Where to lose becomes unthinkable
And to win is the only road now

There's a bridge over the water
I can see it like a rainbow
If you love me I'll be waiting
Take me home to the other side

All of the years that I have wasted
That have been sacrificed for love
Never had what we take for granted
No I don't know love at all
I was so broken I was so wonderful
And so cynical from the pain
I was running from the darkness
When I heard you calling out my name

There's a bridge over the water
I can see it like a rainbow
If you love me I'll be waiting
Take me home to the other side

Love is victorious it can't be defied
We'll stand together
'Cause love is on our side

There's a bridge over the water
I can see it like a rainbow
If you love me I'll be waiting
Take me home to the other side

There's a bridge over the water
I can see it like a rainbow
If you love me I'll be waiting
Take me home to the other side
