

# Sheena Easton, You Make Me Nervous

Verse 1:

A mixed emotion, a state of mind, infatuation of a different kind  
Hesitation's holding me back from you, fascination's drawing me near  
There's a strange reaction caught between attraction and fear, oh oh

Chorus:

You make me nervous, makin' me nervous  
You make me nervous, I wanna hold you but I'm scared I lose control  
You make me nervous, makin' me nervous  
You make me nervous, what you're gonna say or what I'll do I never know

Verse 2:

Anticipating your every move, my nervous breakdown is up to you  
Doesn't take a psychoanalyst's mind to see  
Just what it is that's keeping me here  
There's a strange reaction caught between attraction and fear, oh oh
