

Shelby Flint, ANGEL ON MY SHOULDER

Got an angel on my shoulder

Got a penny in my pocket

And I found a four leaf clover

And I put it in my locket

Wished on all the stars above me

And I caught the nearest rainbow

Gonna find someone to love me

Gonna find someone to love

Well I tossed a lot of nickels in the wishing well

And saved the fortunes that the fortune cookies tell

I got a lucky penny and a mustard seed

But a warm and tender love is all I need

And I want a love that lingers

And a strong one through and through

So Im gonna cross my fingers

That Ill find a boy who loves me true

And Im gonna love him too
