

# Shelby Lynne, All Of A Sudden You Disappeared

We used to talk a lot and walk in flowers  
We used to run and hear each other's voice  
I would see you and you were pretty  
Shut out the world and all the noise  
When you were laughin' I loved to look at you  
How you were overjoyed, it made me cry  
I held your head as you were goin under  
Saw you get lost in all your dreams  
You amazed me with your ways  
Just to feel you made me crazy  
No matter how I got off track  
You found a way to get me back  
Saved me from my darkest hour  
Never could deny your power  
Holdin' time, life stood still  
Everything was happy ending  
Then you were gone  
Then you were gone  
Regret is lonely gains me nothin  
The pictures in my mind are so clear  
I feel your heart but my soul is hungry  
I miss your body, want you near  
Don't know the answer why you are missing  
My void is deep and I can't find my way  
You are all I feel and words don't justify  
Why I cry out loud all day
