

# Shelby Lynne, I Won't Die Alone

(Shelby Lynne)

Ramble with an overtone  
This queen lives without a drone  
Searching lights they lead me home  
I won't die alone.

Gamble with your old wife's money  
You might need to call her honey  
Nights are black and days are sunny  
I won't die alone.

Hot white cake and ice cold coffee  
Get this creepy monkey off me  
Stomp and rant but do it softly  
I won't die alone.

Wait and watch and paint and powder  
Turn the noise up make it louder  
I can't leave here as a coward  
I won't die alone.

Wipe your head and be not sweaty  
This room feels a little heavy  
I ain't worried I am ready  
I won't die alone.

It's raining on my love parade  
Look at what a mess I made  
It's all a joke a big charade  
I won't die alone.

This is easy this is gravy  
I feel like a little baby  
This feels like a natural fade  
I won't die alone  
I won't die alone.
