

Shelby Sifers, Try To Understand

So I'm not big on social situations but
I still like boys, and I like donuts, and I like my job
I could not stand the sound of my voice,
so I used it, we recorded, we produced it,
and it became my medium
I have learned to respect that
I did it best that I can
Try and stay calm when the shit hits the fan
Try to understand
this too will pass
Try to understand
this too will pass
But when I'm in the hospital I see faces I haven't seen in years,
and when I am dying I see faces I haven't seen in years,
cause everyone is reminded just how finite everyone is,
and everyone is reminded just how finite everything is
