

# Shellac, The Idea Of North

he was from up north  
part of ??the North Academy??  
it could have been anywhere  
let's say it was...wants  
imagine living n goin' nuts  
sitting caught in the void  
imagine days without numbers attached  
drinking of course  
i wrote him a letter  
said "i'll never come home!"  
but he never sent it  
but he wrote it again n again  
stacked up to the ceiling  
then another stack  
burn them all winter  
for heat  
picture a chair  
and the way that he sits in it(it)  
he looks out the window  
i think he believes in it
