

# Shelly Fairchild, I Want To Love You

How'd I get here baby  
How'd I get here in your arms  
Why do you make me crazy  
Why do I love a perfect storm  
I could look at you all night  
Stare into love and know that I

I wanna feel your face in my hands  
I wanna see your eyes take me in  
I wanna say again and again  
I want to love you  
I wanna let the kiss take it's time  
I wanna go where your soul meets mine  
And let you know that deep down inside  
I want to love you

I'm so lost in you now  
I'm so lost I can't be found  
My heart's goin' under  
Don't save me baby  
Let me drown  
I want your skin on my skin  
I wanna be someone I've never been

I wanna feel your face in my hands  
I wanna see your eyes take me in  
I wanna say again and again  
I want to love you  
I wanna let the kiss take it's time  
I wanna go where your soul meets mine  
And let you know that deep down inside  
I want to love you

I wanna love you  
I wanna love you  
I, I wanna love you

I wanna feel your face in my hands  
I wanna see your eyes take me in  
I wanna say again and again  
I want to love you  
I wanna let the kiss take it's time  
I wanna go where your soul meets mine  
And let you know that deep down inside  
I want to love you

I wanna love you  
I want to love you
